<b>4 Resources</b>	<b>3</b>
<b>5 Services</b>	<b>16</b>
<b>Index</b>	<b>26</b>
<b>L<sup>A</sup>T<sub>E</sub>X Macros</b>	<b>35</b>

## 1 What is this?

L<sup>A</sup>T<sub>E</sub>X style which allows you to use the [AWS architectural icons](#) in your L<sup>A</sup>T<sub>E</sub>X documents.

The SVG versions of the icons are converted to L<sup>A</sup>T<sub>E</sub>X-compatible PDF form using [Inkscape](#) (Inkscape 0.92.4 (5da689c313, 2019-01-14) ) using the purpose written Go program [aws2tex](#).

This Go program, `aws2tex` creates:

- The icons portion of this document ( `inputicons` )
- Using Inkscape, all of the icons are converted and are written to the `icons_tex` directory.
- This document, which is to illustrate as well as index these icons and their corresponding L<sup>A</sup>T<sub>E</sub>X macros. Not all icons are converted:
  - For *Resources*, only the `_Light` versions. The `_Dark` are omitted.
  - For *Architecture*, only the `_64` versions. The lower resolution `_16`, `_32`, `_48` are omitted.

While the above icons are omitted in the document, they are all included and available for use, in the `icons_tex` directory.

For instructions on how to generate this document with *all* icons, please see the instructions in the README.md at the github repo.

- This document is found in: <https://github.com/gnewton/awsArchIcons2LaTeX>

## 2 How to use it?

Icons can be added to L<sup>A</sup>T<sub>E</sub>X documents using the `\includegraphics` command:

```
\graphicspath{{../icons_tex/}}
```

Here is an API Gateway:

```
\includegraphics[width=1cm]{../icons_tex/Arch_Amazon-API-Gateway_64.pdf}
```

Resulting in:

Here is an API Gateway:

[Without the gray background]

## 2.1 Examples

See the [examples](#) directory at the github repo.

## 3 Source

AWS Architecture Icons from <https://aws.amazon.com/architecture/icons/>.

Assets package used: [AWS-Architecture-Assets-For-Light-and-Dark-BG\\_20200911.478ff05b80f909792f7853b1a28de8e28eac67f4.zip](#)

© Glen Newton 2020

Icons in this document (I believe) are © Amazon Web Services (AWS)

## 4 Resources

### API Gateway: Endpoint

Res\_Amazon-API-Gateway\_Endpoint\_48\_Light.pdf  
Macro:\RAPIGatewayEndpoint

### App Mesh Mesh

Res\_AWS-App-Mesh-Mesh\_48\_Light.pdf  
Macro:\RAppMeshMesh

### App Mesh Virtual Node

Res\_AWS-App-Mesh-Virtual-Node\_48\_Light.pdf  
Macro:\RAppMeshVirtNode

### App Mesh Virtual Router

Res\_AWS-App-Mesh-Virtual-Router\_48\_Light.pdf  
Macro:\RAppMeshVirtRouter

### App Mesh Virtual Service

Res\_AWS-App-Mesh-Virtual-Service\_48\_Light.pdf  
Macro:\RAppMeshVirtSvc

### App Mesh: Virtual Gateway

Res\_App-Mesh\_Virtual-Gateway\_48\_Light.pdf  
Macro:\RAppMeshVirtGateway

### Aurora: Amazon Aurora Instance alternate

Res\_Amazon-Aurora\_Amazon-Aurora-Instance-alternate\_48\_Light.pdf  
Macro:\RAuroraAuroraInstalternate
